

Tokens Eco Agrip protocol technical document

Projet : Tokens EcoAgrip-Coin.

EcoAgrip seeks to promote and give access to the world of cryptocurrencies to all Latin Americans, mainly countries with difficulties in their domestic trade due to low banking, without excluding international trade.

Main features:

It will have low prices per transaction which will allow everyone to have access to trade with crypto assets and we will act as an intermediary in new ICO projects, through EcoAgrip; forming legal agreements that pursue the collection process of the new icos to the point of its execution and payment of profits. EcoAgrip will issue its currency, called EcoAgrip strictly limited to 21,000,000 EcoAgrip, which will never be increased and will distribute royalties in equal parts to the total shares.

The EcoAgrip stablecoin is a decentralized, unbiased cryptocurrency backed by collateral pegged to the US dollar. EcoAgrip is held in cryptocurrency wallets or within platforms, and is compatible with WAVES and other popular blockchains.

EcoAgrip is easy to generate, access and use. Users generate EcoAgrip by depositing collateral assets in Maker Vaults within the Maker Protocol.

This is how EcoAgris is put into circulation and how users access liquidity. Others obtain EcoAgris by buying it from brokers or exchange houses, or simply receiving it as a means of payment .

Once generated, purchased or received, EcoAgris can be used in the same way as any other cryptocurrency: it can be sent to others, used as payment for goods and services, and even saved as savings through a Maker Protocol feature called Rate savings EcoAgris.

EcoAgris will run natively on the Waves blockchain.

Assignment:

The EcoAgris coin will be distributed through the official website <https://tokens.ecoagripina.com/> and will distribute profits from its ICO every two months after 370 days from its launch to the holders of said coin. (JUNE 05, 2022)

Details * Release date for JUNE 01, 2020

* This ICO will be traded through 21,000,000 EcoAgris (shares) and will distribute its profits every quarter after 370 days from its launch (for the valuation that the company will give to the EcoAgris based on the fact that it will receive contributions from companies in exchange for 30%). percent of coins issued)

* It will have low transaction costs, to allow its use and commercialization in a profitable way.

* The analysis determines that the profit is \$ 1 per share at the end of the pre-launch period (June 1, 2022)

Valorization System:

The potential of its cost will be given by:

- 1- Worldwide extension by genuine acquirers in the pre-sale stage.
- 2- Acquiring from us, EcoAgrip, with 60 percent of the Profits, at a price of 1 dollar or according to the market price, so that due to the demand effect it increases its value, this will be done during the first year from its date of launch, resulting in:
 - A) Maintain the price of EcoAgrip at 1 Dollar during this purchase period.
 - B) Increase the price of EcoAgrip each month as profits will be divided among fewer shareholders
 - C) It allows the first investors to take profits in less time.
